

Statistical Discovery™ From SAS.

JMP 14 ROAD SHOW

SELECTED TOPICS

MAJUG WEBEX
JUNE 12, 2018

Tom Donnelly, PhD, CAP
Sr. Systems Engineer & Co-Insurrectionist
JMP Federal Government Team
tom.donnelly@jmp.com
302-489-9291

Agenda

- JMP Learning Resources with Links
- My favorite new capabilities in JMP 14
 - Find Duplicates
 - Distribution – hover info gives number *selected* as well as number in bin
 - Graph Builder: Packed Bars – Jitter – Custom Error Bars – Map Shape Clipping
 - Images as Markers (Columns as Markers)
 - Animated GIF files
 - Import Multiple Files – e.g. text or images
 - “Create Web Report” is now “Publish” & Moved from “View” to “File” menu
 - JMP PRO - Automated Data Imputation
 - JMP PRO - GenReg Multinomial Response
 - Review “What’s New in JMP 14 Journal?” - pairs with 17 short recordings
 - New Project (replaces old Project)
 - Functional Data Explorer – New Platform in JMP Pro

Statistical Discovery™ From SAS.

JMP® LEARNING RESOURCES

UPDATED WITH NEW LINKS TO JMP 14 CONTENT

About Us

Try JMP

> Getting Started with JMP

This live webcast on Fridays shows you the basics of JMP in one hour. For new users or anyone who needs a refresher.

> JMP Training from SAS

We offer courses at all levels to help build your knowledge and skill set.

> Mastering JMP

A webcast series for JMP users of all experience levels who want to build their analytic skills.

OTHER RESOURCES

> Books and JMP

> Learning Library

> Case Study Library

> On-Demand Webcasts

> JMP Blog

> New User Welcome Kit

You just got JMP. Now get ready to explore your data by following our learning road map.

Basic

Intermediate

Advanced

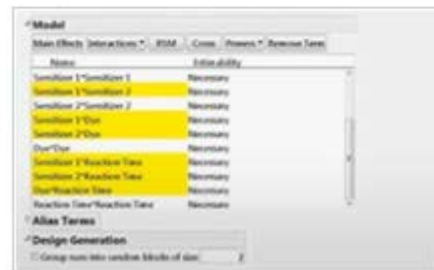

JMP Clinical

> Basic Analysis and Plotting

See, in this case study about housing prices in three cities, how to visualize data to make analyses accessible to statisticians and non-statisticians.

Presented by: Julian Parris

> Basic Design of Experiments

Using a model-oriented approach, JMP generates solutions to address virtually any DOE challenge.

Presented by: Tom Donnelly

www.jmp.com/mastering

17 videos, 2-to-13 minutes in length – Pick your own order to view What's New!

> New in JMP 14 and JMP Pro 14

JMP 14 and JMP Pro 14 include enhancements and new statistical and analytic capabilities that help you visualize, examine and model data about your products, processes and customers.

Presented by: Brady Brady

Under Basic Tab

https://www.jmp.com/en_us/events/ondemand/mastering-jmp/new-in-jmp-14-and-jmp-pro14.html

52-minute video showing in depth how to use the new Project in JMP 14

> Organizing Your Work Using JMP Projects

JMP 14 Projects help you organize large numbers of analyses and reports. See how to construct a workspace that avoids overlapping or concealing JMP windows that you can minimize and maximize. Save reports and window layouts with the Project to display intact when the Project is reopened.

Resources for Learning and Using JMP®

Getting Started Videos

Designed for new users, learn how to navigate and use JMP.

Live Academic Webinars

Live webinars on a variety of topics, by academics for academics.

Academic Webinar Library

Recordings of academic webinars, with journals and datasets.

Learning Library

One-page guides, short how-to videos and tutorials.

Case Study Library

Real world examples with exercises for teaching and learning.

Course Material Library

Course collections, eLearning courses for schools with site licenses, and JMP teaching materials from SAS Education.

Books with JMP

Textbooks, other books with JMP, and textbook add-ins with datasets.

Interactive Learning Tools

Interactive tools for exploring statistical concepts.

AP Statistics Resources

Resources for AP Statistics and secondary schools.

Student Assessment

Interactive JMP questions to improve student engagement using WebAssign's online assessment questions.

JMP[®] Learning Library

Tools to get you started learning JMP.

Basic instructions on how to get the most out of JMP, including quick overviews, videos, and step-by-step tutorials*.

Choose a category below to get started.

Profilers > Profiler > Desirability Profiling and Optimization

Desirability Profiling and Optimization

You can define a desirability function for a single response variable or for several response variables. When you are optimizing relative to several responses, there can often be competing criteria. For example, you might want to maximize one response, minimize another, and keep a third response close to some target value.

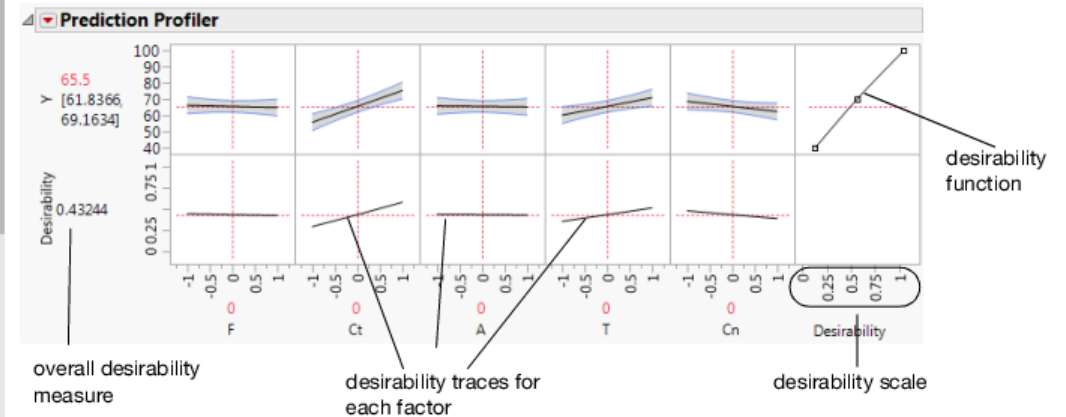

In desirability profiling, you specify a desirability function for each response. The overall desirability for all responses is defined as the geometric mean of the desirability functions for the individual responses. See Derringer and Suich (1980) for information about combining responses.

To use desirability profiling, select **Optimization and Desirability > Desirability Functions** from the Prediction Profiler red triangle menu.

Note: If the response column has a Response Limits property, desirability functions are turned on by default.

This command appends a new row to the bottom of the plot matrix, dedicated to graphing desirability. The row has a plot for each factor showing its *desirability trace*, as illustrated in [The Desirability Prediction Profiler](#). It also adds a column that has an adjustable desirability function for each Y variable. The overall desirability measure shows on a scale of zero to one at the left of the row of desirability traces.

The Desirability Prediction Profiler

Instructors with DoD Experience

Jim Wisnowski

Jim is Principal at Adsurgo LLC and has a PhD in industrial engineering from Arizona State University with an emphasis in applied statistics. He was an award-winning professor and statistics chair at the US Air Force Academy. Jim retired from the Air Force, where he held various analytical and leadership positions throughout the Department of Defense in training, testing and evaluation, human resources, logistics, systems engineering and acquisition.

One of Jim's students said: "Jim is top-notch instructor with vast knowledge of the subject matter. As well, his experience with DoD and military methodology, tools and policy proved especially helpful in his interaction with the class. For future training, I intend to request Jim."

Heath Rushing

Heath is an American Society of Quality (ASQ) Certified Quality Engineer and the co-founder and principal consultant of Adsurgo LLC, a company specializing in advanced analytics consulting services and training for enhanced business performance. He has been a professor at the US Air Force Academy as well as a quality engineer and Six Sigma Black Belt in both biopharmaceutical manufacturing and R&D. Heath holds a master's degree in operations research from the Air Force Institute of Technology and has used JMP since 2001.

One of Heath's students said: "Heath was very professional and knowledgeable on both statistical analysis and the use of JMP software. He kept us on target and interjected a good amount of fun into the course when needed."

JMP and JMP PRO 13 Receive US Army Certificate of Networthiness (CoN) - 10 October 2017

Product Name: SAS JMP Pro 13.X and SAS JMP 13.x

CONID: 000034751

CaseID: CERT-201722055

Expires: 10OCT2020

Product Facts:

*This is an upgrade to Certificate 201519172.

*This Certificate of Networthiness includes the SAS JMP 13.x and SAS JMP Pro 13.x editions.

Submitted Date: 31Jan2017

2017 85th MORSS Tutorial Slides Available for Download

85th Military Operations Research Society Symposium (MORSS)

United States Military Academy, West Point, NY

Click [here](#) to download PDF copies of slides.

2018 86th MORSS Tutorial
Slides to be Posted in July

Over the course of the 85th MORSS Symposium Tom Donnelly presented eight 1-hour tutorials:

19496 - *Building Better Models Using Robust Data Mining Methods*

19716 - *Exploratory Data Analysis and Root Cause Analysis -*

"What can you do when you don't have a designed experiment?"

19497 - *Making Your Design of Experiments (DOE) Fit Real-World Problems*

19501- *Using Definitive Screening Designs to Get More Information from Fewer Trials*

19498 - *Efficient Modeling & Simulation Using Design of Experiments Methods*

19500 - *Calling All Chemists – Efficient Formulation Design*

19713- *How to Compare and Choose Experimental Designs*

19499 - *All Graphs are Wrong – Some are Useful*

Click [here](#) to download PDF copies of slides.
